Dear CoLiTec team,

As chairman of the Gaia-FUN-SSO-3 workshop, I would like to thank you for your participation to this workshop. I thank you also for your very interesting presentation of the CoLiTec software and its applications. Since it addresses the problem of the detection of faint moving objects, it is well adapted to the Gaia-FUN-SSO conditions of observation. Therefore I recommend CoLiTec software to all members of the Gaia-FUN-SSO network. Information about CoLiTec with link to web-site has been posted on the Gaia-FUN-SSO Wiki (<https://www.imcce.fr/gaia-fun-ss0/>)

With hope for further collaboration.
With my best regards,

William THUILLOT
